

# INFO B-519 (& INFO B-419) Introduction to Bioinformatics

Department of BioHealth Informatics  
Indiana University School of Informatics and Computing, Indianapolis  
Fall 2021

*Credit Hours:* 3

*Time:* Wednesdays 6:00–8:40 pm

*Location:* IT 270

*First Class:* August 25, 2021

*Instructor:* Amir Manzour, Ph.D., Assistant Professor

*Office Hours:* Mondays 2:00 – 3:00 pm by Appointment

Zoom meeting ID: 730 117 6460 Password: **135791**

<https://iu.zoom.us/j/7301176460?pwd=MDZYV3NzVWN0UmRBWVR2bWRFZVdIQT09> (Links to an external site.)

*Office:* IT 479

535 W. Michigan Street, Indianapolis, IN 46202

*Phone:* (317) 278-4108 (Office)

*Email:* amanzour@iu.edu

*Website:* <https://soic.iupui.edu/people/amir-manzour/>

*Prerequisites:* None

## COURSE DESCRIPTION

Bioinformatics is an interdisciplinary science that uses computational tools to solve biological problems. With the development of high throughput DNA and protein sequencing technologies, large volumes of biological data have been generated and computational tools have become indispensable in biological data analysis.

Topics include: database searching, sequence alignment, DNA sequencing, microarray and RNA-seq, RNA structure prediction, protein sequencing, protein identification and quantification, phylogenetic trees, etc.

## Reference Textbooks:

Title: Bioinformatics and Functional Genomics

Author: Pevsner, Jonathan

Edition: 2<sup>nd</sup> edition (May 4, 2009)

Publisher: Wiley-Blackwell

ISBN: ISBN-10: 0470085851, ISBN-13: 978-0470085851

Available at Amazon.com: <http://www.amazon.com/Bioinformatics-Functional-Genomics-Jonathan-Pevsner/dp/0470085851>

Title: Bioinformatics Sequence and Genome Analysis  
Author(s): David Mount  
Edition: 2<sup>nd</sup> edition (July 1, 2004)  
Publisher: Cold Spring Harbor Laboratory Press  
ISBN: ISBN-10: 0879697121, ISBN-13: 978-0879697129

Available at Amazon.com: <http://www.amazon.com/Bioinformatics-Sequence-Genome-Analysis-Edition/dp/0879697121>

### **Course Outcomes:**

The learning objectives of this course include the following:

1. To familiarize students with some of the basic computational problems in bioinformatics.
2. To familiarize students with basic methods and tools for solving computational problems in bioinformatics.

### **Core Competencies:**

The core competencies of this course include the following:

1. The ability to analyze biological data set with state-of-the-art computational tools and methods.
2. The ability to design software pipelines for automatic analysis of big biological data and to find biological information from the data.

## **EXPECTATIONS, GUIDELINES, AND POLICIES**

### **Incomplete:**

The instructor may assign an Incomplete (I) grade only if at least 75% of the required coursework has been completed at passing quality and holding you to previously established time limits would result in unjust hardship to you. All unfinished work must be completed by the date set by the instructor. Left unchanged, an Incomplete automatically becomes an F after one year. <http://registrar.iupui.edu/incomp.html>

### **Deliverables:**

You are responsible for completing each deliverable (e.g., assignments) by its deadline and submitting it by the specified method. Deadlines are outlined in the syllabus or in supplementary documents accessible through Canvas. Should you miss a class, you are still responsible for completing the deliverable and for finding out what was covered in class, including any new or modified deliverable. You are allowed one excused or unexcused late submission in 24 hours after the deadline. For the second late submission, a grade on a deliverable shall be zero.

**Exams:**

Mid-Term Exam Oct 6, 6:00 – 8:00 pm  
Final Exam Nov 17, 6:00 – 8:00 pm

**Class assignments:**

Four home assignments will be given during the course.

**Project:**

Students will complete projects about analysis of biological data. Students will work in a group of 1- 3 students. Each group will find biological data, design analysis methods, and report analysis reports. Each group will submit a methodology report and a final report, as well as present analysis results.

**Grading Information:**

- Homework 25%
- Exams 50%
  - Mid-term exam 20%
  - Final exam 30%
- Project 25%
  - Methodology report 8%
  - Final report and presentation 17%

## TENTATIVE SCHEDULE

	Date	Class topic	Percentage
Lecture 1	Aug 25	Introduction to bioinformatics	9%
Lecture 2	Sep 1	Biological databases	9%
Lecture 3	Sep 8	Sequence alignment I	9%
Lecture 4	Sep 15	Sequence alignment II	9%
Lecture 5	Sep 22	Sequence alignment III	9%
Lecture 6	Sep 29	Multiple sequence alignment	9%
Mid-term exam	Oct 6		
Lecture 7	Oct 13	DNA sequencing	9%
Lecture 8	Oct 20	Protein identification	9%
Lecture 9	Oct 27	Gene expression analysis	9%
Lecture 10	Oct 27	Protein quantitation	9%
Lecture 11	Nov 3	Molecular phylogeny	9%
Review	Nov 10		
Final exam	Nov 17		
Project presentation	Nov 24		

### Grading Scale:

Grading is based on the ranks of students.

Grade Category	Grade	Relative Class Rank Range
Exceptional	A+	Top 10%
Outstanding	A	Top 25%
Good	A-	Top 45%
Satisfactory	B+	Median%
Reasonable (Pass)	B	Lower 35%
Marginal (Pass)	B-	Lower 15%
Fail	C+, C, C-	-

### MISSION STATEMENT

The Mission of IUPUI is to provide for its constituents excellence in

- Teaching and Learning;
- Research, Scholarship, and Creative Activity; and
- Civic Engagement.

With each of these core activities characterized by

- Collaboration within and across disciplines and with the community;
- A commitment to ensuring diversity; and
- Pursuit of best practices.

IUPUI's mission is derived from and aligned with the principal components—Communities of Learning, Responsibilities of Excellence, Accountability and Best Practices—of Indiana University's Strategic Directions Charter.

## STATEMENT OF VALUES

IUPUI values the commitment of students to learning; of faculty to the highest standards of teaching, scholarship, and service; and of staff to the highest standards of service. IUPUI recognizes students as partners in learning. IUPUI values the opportunities afforded by its location in Indiana's capital city and is committed to serving the needs of its community. Thus, IUPUI students, faculty, and staff are involved in the community, both to provide educational programs and patient care and to apply learning to community needs through service. As a leader in fostering collaborative relationships, IUPUI values collegiality, cooperation, creativity, innovation, and entrepreneurship as well as honesty, integrity, and support for open inquiry and dissemination of findings. IUPUI is committed to the personal and professional development of its students, faculty, and staff and to continuous improvement of its programs and services.

## CODE OF CONDUCT

All students should aspire to the highest standards of academic integrity. Using another student's work on an assignment, cheating on a test, not quoting or citing references correctly, or any other form of dishonesty or plagiarism shall result in a grade of zero on the item and possibly an F in the course. Incidences of academic misconduct shall be referred to the Department Chair and repeated violations shall result in dismissal from the program.

All students are responsible for reading, understanding, and applying the *Code of Student Rights, Responsibilities and Conduct* and in particular the section on academic misconduct. Refer to *The Code > Responsibilities > Academic Misconduct* at <http://www.indiana.edu/~code/>. All students must also successfully complete the Indiana University Department of Education "How to Recognize Plagiarism" Tutorial and Test. <https://www.indiana.edu/~istd> You must document the difference between your writing and that of others. Use quotation marks in addition to a citation, page number, and reference whenever writing someone else's words (e.g., following the *Publication Manual of the American Psychological Association*). To detect plagiarism instructors apply a range of methods, including Turnitin.com. <http://www.ulib.iupui.edu/libinfo/turnitin>

### Academic Misconduct:

1. **Cheating:** Cheating is considered to be an attempt to use or provide unauthorized assistance, materials, information, or study aids in any form and in any academic exercise or environment.
  - a. A student must not use external assistance on any "in-class" or "take-home" examination, unless the instructor specifically has authorized external assistance. This prohibition includes, but is not limited to, the use of tutors, books, notes, calculators, computers, and wireless communication devices.
  - b. A student must not use another person as a substitute in the taking of an examination or quiz, nor allow other persons to conduct research or to prepare

work, without advanced authorization from the instructor to whom the work is being submitted.

- c. A student must not use materials from a commercial term paper company, files of papers prepared by other persons, or submit documents found on the Internet.
  - d. A student must not collaborate with other persons on a particular project and submit a copy of a written report that is represented explicitly or implicitly as the student's individual work.
  - e. A student must not use any unauthorized assistance in a laboratory, at a computer terminal, or on fieldwork.
  - f. A student must not steal examinations or other course materials, including but not limited to, physical copies and photographic or electronic images.
  - g. A student must not submit substantial portions of the same academic work for credit or honors more than once without permission of the instructor or program to whom the work is being submitted.
  - h. A student must not, without authorization, alter a grade or score in any way, nor alter answers on a returned exam or assignment for credit.
2. **Fabrication:** A student must not falsify or invent any information or data in an academic exercise including, but not limited to, records or reports, laboratory results, and citation to the sources of information.
  3. **Plagiarism:** Plagiarism is defined as presenting someone else's work, including the work of other students, as one's own. Any ideas or materials taken from another source for either written or oral use must be fully acknowledged, unless the information is common knowledge. What is considered "common knowledge" may differ from course to course.
    - a. A student must not adopt or reproduce ideas, opinions, theories, formulas, graphics, or pictures of another person without acknowledgment.
    - b. A student must give credit to the originality of others and acknowledge indebtedness whenever:
      1. directly quoting another person's actual words, whether oral or written;
      2. using another person's ideas, opinions, or theories;
      3. paraphrasing the words, ideas, opinions, or theories of others, whether oral or written;
      4. borrowing facts, statistics, or illustrative material; or
      5. offering materials assembled or collected by others in the form of projects or collections without acknowledgment
  4. **Interference:** A student must not steal, change, destroy, or impede another student's work, nor should the student unjustly attempt, through a bribe, a promise of favors or threats, to affect any student's grade or the evaluation of academic performance. Impeding another student's work includes, but is not limited to, the theft, defacement, or mutilation of resources so as to deprive others of the information they contain.
  5. **Violation of Course Rules:** A student must not violate course rules established by a department, the course syllabus, verbal or written instructions, or the course materials that are rationally related to the content of the course or to the enhancement of the learning process in the course.

6. **Facilitating Academic Dishonesty:** A student must not intentionally or knowingly help or attempt to help another student to commit an act of academic misconduct, nor allow another student to use his or her work or resources to commit an act of misconduct.

## OTHER POLICIES

1. **IUPUI course policies:** A number of campus policies governing IUPUI courses may be found at the following link: [http://registrar.iupui.edu/course\\_policies.html](http://registrar.iupui.edu/course_policies.html)
2. **Classroom civility:** To maintain an effective and inclusive learning environment, it is important to be an attentive and respectful participant in lectures, discussions, group work, and other classroom exercises. Thus, unnecessary disruptions should be avoided, such as ringing cell phones engagement in private conversations and other unrelated activities. Texting, surfing the Internet, and posting to Facebook or Twitter during class are generally not permitted. IUPUI nurtures and promotes “a campus climate that seeks, values, and cultivates diversity in all of its forms and that provides conditions necessary for all campus community members to feel welcomed, supported, included, and valued” (IUPUI Strategic Initiative 9). IUPUI prohibits “discrimination against anyone for reasons of race, color, religion, national origin, sex, sexual orientation, marital status, age, disability, or [veteran] status” (Office of Equal Opportunity). Profanity or derogatory comments about the instructor, fellow students, invited speakers or other classroom visitors, or any members of the campus community shall not be tolerated. A violation of this rule shall result in a warning and, if the offense continues, possible disciplinary action.
3. **Bringing children to class:** To ensure an effective learning environment, children are not permitted to attend class with their parents, guardians, or childcare providers.
4. **Disabilities Policy:** In compliance with the Americans with Disabilities Act (ADA), all qualified students enrolled in this course are entitled to reasonable accommodations. Please notify the instructor during the first week of class of accommodations needed for the course. Students requiring accommodations because of a disability must register with Adaptive Educational Services (AES) and complete the appropriate AES-issued before receiving accommodations. The AES office is located at UC 100, Taylor Hall (Email: [aes@iupui.edu](mailto:aes@iupui.edu), Tel. 317 274-3241). Visit <http://aes.iupui.edu> for more information.
5. **Administrative Withdrawal:** A basic requirement of this course is that students participate in all class discussions and conscientiously complete all required course activities and/or assignments. If a student is unable to attend, participate in, or complete an assignment on time, it is the student’s responsibility to inform the instructor. If a student misses more than half of the required activities within the first 25% of the course without contacting the instructor, the student may be administratively withdrawn from this course. Administrative withdrawal may have academic, financial, and financial aid implications. Administrative withdrawal will take place after the full refund period, and a student who has been administratively withdrawn from a course is ineligible for a tuition refund. Contact the instructor with questions concerning administrative withdrawal.
